

# VIVID FAST DRY CONCRETE DYE

- Rich Colors
- Interior Use
- Easy to Apply
- Fast Drying

All Vivid Dye colors are available in water-based and VOC-exempt solvent formulas.

## Flexible Color:

All Vivid Dyes can be used in various concentrations to give you a full range of color intensities. See how it works with the example of Black Diamond shown below:

Vivid Dye is Specially Formulated For Use With  
**fgsPermaShine**  
polished concrete

**DISCLAIMER:** All colors are shown at 100% intensity, except **Black Diamond**, which is shown in various concentrations. Since no control is exercised over product use, L&M Construction Chemicals, Inc. and its respective agents and assigns represents and warrants only that its products are of consistent quality within the manufacturers' tolerances. Coverage, color intensity, hue, and cost are totally within the user's control. The color chart is an approximation of the range of colors but does not necessarily represent final results. Due to limitations and variations in printing, color accuracy is not guaranteed.  
**Test samples are recommended in all applications prior to actual use.**
