

# commercial & industrial resinous flooring

## HP Spartacote® coating systems

HP Spartacote offers a full line of patented dual-cure® polyaspartic coatings for concrete. Our high performance commercial and industrial flooring systems provide owners with superb concrete protection & longevity in even the most demanding heavy-traffic situations. Specifiers and designers may select from a multitude of colors, blends and finishes to create customized resinous flooring solutions to compliment any environment.

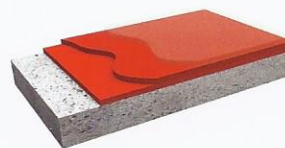

### HP Spartacote Advantages:

- One-day installation & next-day return to service
- Superior chemical and stain resistance
- UV stable & non-yellowing
- No voc & odor-free applications
- Outstanding adhesion to concrete & steel
- High durability
- Interior or exterior use
- Low temperature cure
- No hot-tire pickup

## Sparta-Guard™ solid-color coatings

Superior resistance to punishing industrial traffic, skydrol and other harsh chemicals. Popular where cleanliness is a must. A logical choice for demanding environments such as aviation hangers, manufacturing and shop floors.
